A ONE-WOMAN STORY-TELLING PLAY

Rethinking Good Intentions

by Dr. Nancy Edwards, BScN, MSc, PhD, FCAHS
TRU Honorary Doctorate

*Professor Emeritus, University of Ottawa and past Scientific Director,
CIHR Institute of Population and Public Health*

Journey with Dr. Nancy Edwards, a Canadian community health nurse who volunteered with CUSO, as she transports us to Sierra Leone's rural villages in the late '70s and early '80s. Her vivid solo performance reveals moments that upended her cultural expectations, confronted privilege, and forged lifelong bonds. Honest, funny, and deeply human.
